

# FISHWATCH SURVEY

**Saturday 28<sup>th</sup> and Sunday 29<sup>th</sup> June 2008**

Join the Dorset Wildlife Trust **FISH WATCH** survey at the Purbeck Marine Wildlife Reserve, Kimmeridge. 100 divers / 1 weekend doing a 'snapshot' survey in the reserve.

Easy to ID species - Trigger fish, Rays, John Dory, Cuckoo wrasse, Seahorse and the rare Black-faced blenny. Marine wardens will be on hand to help with ID and other information.

Divers must organise their own dives - a boat dive through their club or a shore dive. Dorset Wildlife Trust are **not** organising any dives. An underwater camera might be useful for recording sightings but is not essential.

All dive clubs visiting Kimmeridge that weekend are welcome to join in. To register in advance contact the Fine Foundation Marine Centre on 01929 481044 or email [kimmeridge@dorsetwildlife.co.uk](mailto:kimmeridge@dorsetwildlife.co.uk) with your name, club name and contact details.
